### Skillers Flexi System

Decide for yourself how you want to carry your tools.

Skillers Flexi System is a system that helps you to individualize your work wear to suit your own personal needs. This system of belt, yoke, harness, suspenders and several pouches will help you to carry the weight of your tools and equipment evenly and lessen the fatigue and lower back pain from carrying all the weight on your hips. The system of pouches also works on most of our garments. You simply attach your favorite pouches on to the sewn-in velcro tool fastener.

Skillers Flexi System is made from hard-wearing, light-weight Cordura that retains its shape for a long time. Compared to leather, the material is lighter, airier, does not absorb dirt and moisture and will not get moldy.

#### Cell Phone Pouch

**\$9.95**

Flexible for Handheld devices up to 4 1/2" long X 1/2" thick X 2 1/2 " Wide. Small and Medium Size Cell Phones up to: 4 1/2" Long X 1" Thick X 2 1/4" Wide. It can be attached to the velcro attachments on the hips of our Skill [\[Product Details...\]](#)
